A TEXAS WONDER PROTEST AGAINST TAX ON CATTLE

Indian Territory Say Law Is Unconstitutional.

ASK FOR AN INJUNCTION. DECLINES TO BE INTERVIEWED.

the Interior From Enforcing the Act of the Chickasaw Legislature.

The Republic Bureau, 14th St. and Pennsylvania Ave. Washington, Aug. 29.-Action has been brought in the Supreme Court of the District to prevent Secretary Hitchcock of the Interior Department and Indian Commissioner Jones from enforcing a law passed by the Chickasaw Legislature which provides that the Chickasaw Nation shall be paid 25 cents a year for each head of stock not belonging to a member of the tribe which grazes of the land of the nation.

On May 3 of the present year the Chickasaw Legislature passed the act which has provoked the litigation. Mr. Hitchcock has instructed the office of Indian Affairs to enforce the measure, and persons owning cattle and horses which feed on the Chickasaw lands resist this attempt to put into

force a measure which they maintain is nconstitutional. The law does not provide that the fee of S cents shall entitle the persons who pay it to the use of feed and water for their stock. In addition to paying this fee the cattlemen are compelled to rent the land from individual Indians who maintain that they own it.

The petitioners are William G. Maxwell and Philip S. Witherspoon of Gainesville. Tex.; Isaac H. Harnes. Thomas Peery, R. L. Glover and Milton F. Ikard of Chickasha, I. T.; C. M. Keyes of Kansas City. Mo., and J. B. Spragims of Ardmore, I. T. They allege that they also represent many other petitioners and that, all told, the owners of more than 100,000 head of live stock are interested in the litigation.

It is contended in the petition that Secretary Hitchcock is only a ministerial officer and that he has no authority to undertake the enforcement of a law of the Chickasaw Nation. It is asserted that the laws of an Indian nation cannot in any way apply to citizens of the United States.

The petitioners allege that threats have been made that the Government officials will seize their cattle and drive them off the Chickasaw lands if they do not pay the fee. They ask that they be protected from any such action.

ries sent out by the society:

The injury to orchards has been most severe to old trees by the severe cold and extreme drought. Injury by canier worms has been repaired by good weather and good growth. Willismany trees have died from last summer's drought, set trees have recovered wonderfully because of the favorable weather of the present summer and the condition of the trees may be said to be very fair indeed. Orchards, where well cultivated, show the best condition. Young orchards not too heavily loaded has year generally show as good crop this year although some exceptional orchards are giving their usual good crops again this year.

Orchards in full bearing are scattered over all portions, and some reports show a full crop and of very perfect fruit. The general reports show the fruit in good condition and nearly free from insects, scab or functs disease. Some fear is expressed that bitter rot may appear and injure the crop yet.

Taking the State as a whole, the crop can be is expressed that bitter for may appear and in-jure the crop yet.

Taking the State as a whole, the crop can be placed at 55 per cent, while many special locali-ties report 50 to 90 per cent.

The fruit is very fine and large and nearly free from worms, so that the buyers can find a quan-tity of fine winter applies in many localities.

The good crop in the East justifies the opinion that we can expect only fair prices, even with the short crop in view.
